PROFESSIONAL SUMMARY

Motivated Full-Stack Developer with 3+ years of experience in full-stack development, mobile development, coding instruction, and project collaboration. Proficient in **React, React Native, JavaScript, Node.js, Express, and modern UI frameworks**, with a proven track record of building responsive, scalable web and mobile applications. Skilled in debugging, version control (Git), Agile teamwork, and writing clean, maintainable code. Passionate about delivering impactful results, contributing to innovative products, and advancing technical growth.

SKILLS

- Debugging, Problem-Solving & Troubleshooting
 - Frontend Development – React.js, JavaScript, React Native, HTML5, CSS, Bootstrap, Tailwind
 - Database Management – MongoDB, MySQL, PostgreSQL
 - State Management – Redux, Zustand
 - Backend Development – Node.js, Express.js, RESTful APIs
 - Version Control – Git, GitHub
 - UI/UX – Responsive Web Design, Clean Code Practices
 - Communication, Strategic Planning, Negotiation, Networking
-

EXPERIENCE

Software Development Instructor, Givitec ICT Ltd

Jan 2021 – Dec 2022 (2 Years)

- Taught JavaScript, React, and Node.js to beginner and advanced students.
- Designed projects (expense trackers, CRUD apps) to reinforce concepts.
- Simplified complex topics, enhancing communication and teaching skills.
- Mentored students in debugging, Git usage, and deployment.

Full-Stack Web Developer Givitec ICT Ltd – 2023

- Developed and deployed responsive web applications using React, Next.js, Node.js, and NoSQL.
- Built RESTful APIs, optimized frontend performance, and improved UX.
- Collaborated in Agile teams with Git version control for efficient delivery.
- Troubleshooted and debugged applications, ensuring high-quality deployments.

Full-Stack Web Developer (Freelance) Self-Employed – 2023 – Present

- **Real Estate Platform (MERN Stack):** Built a property management system with React, Node.js, and MongoDB, enabling uploads, scheduling, and rentals. Added JWT authentication and email verification, developed an admin dashboard, and deployed on AWS/Vercel with CI pipelines.
 - **Dannic Inspo (React, Node.js, MongoDB, ImageKit):** Created a media-sharing platform with uploading, liking, and saving features. Integrated ImageKit, cutting load times by 30%. Designed a fully responsive UI.
 - **AI-Powered Expense Tracker (React, Python, JWT):** Built an AI-based financial tracking app with categorization, REST APIs, and dynamic charts. Deployed on Netlify and Heroku for seamless hosting.
-

EDUCATION

Naval Architecture and Marine Engineering

Bachelor of Engineering (B.Eng.)

University of Benin, Faculty of Engineering.

Relevant Coursework:

Programming & Problem Solving • System Design & Architecture • Software Development
Principles • Web Technologies (HTML, CSS, JavaScript) • Data Structures & Algorithms •
Database Systems • Cyber Security.
