PROFESSIONAL SUMMARY

Full-Stack Developer with 3+ years of experience in web and mobile development, coding instruction, and collaborative project delivery. Proficient in React, React Native, JavaScript, Node.js, Express, and modern UI frameworks, with a proven ability to build responsive, scalable, and high-performance applications. Experienced in debugging, version control (Git), Agile workflows, and writing clean, maintainable code. Committed to delivering impactful solutions, contributing to innovative products, and continuously advancing technical expertise.

SKILLS

- Debugging, Problem-Solving & Troubleshooting
- Frontend Development – React.js, JavaScript, React Native, HTML5, CSS, Bootstrap, Tailwind
- Database Management – MongoDB, MySQL, PostgreSQL
- State Management – Redux, Zustand
- Backend Development – Node.js, Express.js, RESTful APIs
- Version Control – Git, GitHub
- UI/UX – Responsive Web Design, Clean Code Practices
- Communication, Strategic Planning, Negotiation, Networking

EXPERIENCE

Software Developer, Givitec ICT Ltd
2022 – 2025

- Taught JavaScript, React, and Node.js to beginner and advanced students.
- Designed projects (expense trackers, CRUD apps) to reinforce concepts.
- Simplified complex topics, enhancing communication and teaching skills.
- Mentored students in debugging, Git usage, and deployment.

Full-Stack Web Developer, Givitec ICT Ltd – 2023

- Developed and deployed responsive web applications using React, Next.js, Node.js, and NoSQL.
- Built RESTful APIs, optimized frontend performance, and improved UX.
- Collaborated in Agile teams with Git version control for efficient delivery.
- Troubleshot and debugged applications, ensuring high-quality deployments.

Full-Stack Web Developer (Freelance) Self-Employed – 2023 – Present

- **Real Estate Platform (MERN Stack):** Built a property management system with React, Node.js, and MongoDB, enabling uploads, scheduling, and rentals. Added JWT authentication and email verification, developed an admin dashboard, and deployed on AWS/Vercel with CI pipelines.

- **Dannic Inspo (React, Node.js, MongoDB, ImageKit):** Created a media-sharing platform with uploading, liking, and saving features. Integrated ImageKit, cutting load times by 30%. Designed a fully responsive UI.

- **AI-Powered Expense Tracker (React, Python, JWT):** Built an AI-based financial tracking app with categorization, REST APIs, and dynamic charts. Deployed on Netlify and Heroku for seamless hosting.

EDUCATION
Naval Architecture and Marine Engineering
Bachelor of Engineering (B.Eng.)
University of Benin, Faculty of Engineering.
Relevant Coursework:

Programming & Problem Solving • System Design & Architecture • Software Development Principles • Web Technologies (HTML, CSS, JavaScript) • Data Structures & Algorithms • Database Systems • Cyber Security.

CERTICATES

Full-Stack Web Development
GIVITEC LTD (view)
June 2022 – October 2022
Certificate ID: GI207GT0011023
